

## Integrated Management System Statement

Newtownstewart Construction Ltd. was formed in 1983 as a family run construction company. Since the establishment this business has developed well and is expanding successfully.

Newtownstewart Construction Limited is a provider of specialist civil engineering, demolition and building services. We recognize the need to demonstrate effective quality, environmental and health and safety management through a company wide commitment to continual improvement. This is demonstrated through all aspects of our product and service delivery. We seek to minimize our environmental impacts and prevent pollution, injury and ill health and ensure compliance with all applicable legal and other requirements.

Newtownstewart Construction Limited recognises the importance to its future of adopting a strategy, which bases the development of its business on the pursuit of quality and improved environmental performance throughout the organisation. This commitment to quality and the environment is based on the principle that the effective and consistent implementation of operational systems, which reflect both customer and business requirements, will result in the continual satisfaction of customer needs and environmental protection.

It is the policy of the Company to achieve this through the continual improvement of the Company's activities by the planning, setting and implementation of specified and measurable objectives by the Management Team and the regular review of the effectiveness of the management system via the Management Review process.

This commitment is based on the implementation of a management system that reflects the business requirements of the Company. This management system is defined in a documented management manual, which provides clear standards and guidelines in all the appropriate areas of the Company's activities.

Newtownstewart Ltd are committed to the highest possible standards of products and services to all of their customers, and to assist in this goal have implemented an integrated management system (IMS) to meet the requirements of both ISO9001:2015 and ISO14001:2015 standards, as it applies to the products and services provided by our organisation, and all legislative requirements and other applicable Standards.
